- The player needs to find total 5 paddles and collect to escape, each time he found one, he can run toward to collect item.
- The enemies will begin to chase the player if they detect him at a certain distance
- The enemies will attack the player if colliding, once collided, the game will over

Baseline Narrative

The main character Kevin found himself strange to be on this neverland by accident, he needs to find a way back home. The only tool that can used to escape is an abandoned wooden boat without any paddles, so he needs to collect paddles from the forest to use the boat. Also, there are some wolfs prevent his collections by chasing and catching him. So, Kevin must go around the forest to find all paddles needs before detected and caught by a wolf.

Gameplay

- The player should try to avoid detect by wolfs
 - The detect ray cast distance is 20f, so try to walk in front of the wolfs to let them see.
 - Use run, jump direction control to avoid catch and extend the distance to stay safety
- The player should collect enough amount of paddle
 - The real-time amount can be seen in the left-bottom of the screen
- The player should use direction and movement control to avoid obstacles
 - All trees, rocks and buildings will stick the player's movement
